Email: [shalinisharjy@gmail.com](mailto:shalinisharjy@gmail.com)

Location: Kollegala, Karnataka, India

## CAREER OBJECTIVE

Detail-oriented and highly motivated Mechanical Engineering graduate with a consistent record of academic excellence, graduating with First Class with Distinction (FCD). Seeking an entry-level position in a professionally driven environment where I can leverage strong domain knowledge in CAD, CAE, and robotics to solve complex engineering challenges, contribute to organizational goals, and scale up my professional expertise.

## ACADEMIC QUALIFICATION

| DEGREE / QUALIFICATION      | INSTITUTION                                    | BOARD / UNIVERSITY | YEAR | SCORE                   |
|-----------------------------|------------------------------------------------|--------------------|------|-------------------------|
| B.E. Mechanical Engineering | Government Engineering College, Krishnarajapet | VTU, Belagavi      | 2026 | 8.05 CGPA<br>FCD Result |
| PUC (Class XII)             | Govt PU College for Girls, Kamagere            | DPUE, Karnataka    | 2022 | 74.16%                  |
| SSLC (Class X)              | St. Francis Xavier High School, Kamagere       | KSEEB, Karnataka   | 2020 | 82.24%                  |

## PROFESSIONAL TRAINING & INTERNSHIPS

### Engineering Intern & Technical Trainee

Government Tool Room and Training Centre (GTTC), Mysuru | Duration: 4 Months

- Gained intensive hands-on experience in industrial manufacturing workflows, tooling setups, and specialized precision engineering concepts.
- Acquired deep domain exposure to modern production machinery, including Computer Numerical Control (CNC) programming and operational troubleshooting.
- Studied real-world integrations of automated systems, tool engineering blueprints, and advanced robotics modules applied in smart production environments.

## ACADEMIC PROJECTS

### Design, Development and Fabrication of a Solar-Powered Pesticide Sprayer with Grass Cutter

Role: Team Member / Project Engineer | Capstone Design Project

- Conceptualized and fabricated a multi-functional eco-friendly agricultural machine merging autonomous grass cutting with uniform pesticide delivery systems.
- Designed structural frame layout and mechanical linkages using Computer-Aided Design (CAD) software to ensure balanced distribution of weight.
- Integrated solar photovoltaic panels and charge regulators with a high-efficiency DC motor assembly, eliminating fossil-fuel dependency and reducing operating costs.

## TECHNICAL SKILLS

**Core Engineering:** Computer-Aided Design (CAD), CAE (Analysis), Tooling & Tool Design, Robotic Kinematics  
**Industrial Systems:** CNC Programming, Automation Setup, Precision Machinery Operations  
**Programming:** Basic C Programming, Introduction to Python Scripting

## PROFESSIONAL STRENGTHS

- **Adaptive Problem Solver:** Highly resilient, eager to face complex design or on-site engineering challenges head-on.
- **Analytical Listener & Fast Learner:** Rapidly internalizes new production workflows, industry standards, and software updates.
- **Strong Communicator:** High-impact technical presentation skills, capable of conveying raw data blueprints cleanly to cross-functional teams.
- **Versatile Collaborator:** Readily adjusts to rigorous, highly disciplined industrial environments and dynamic team frameworks.

## PERSONAL PROFILES & INTERESTS

**Languages:** English, Kannada (Fluent)

**Date of Birth:** 19-05-2004

**Hobbies:** Socializing (Dedicated Volunteer Community Work), Music Appreciation

**Nationality:** Indian (Single)

*I hereby declare that the above-mentioned information is correct to the best of my knowledge and belief.*

*Place: Kollegala*
